

Post Procedure Instructions

Procedure: Botox Treatment

1. You will have some redness at the injection sites which will clear up in a few hours.
2. You may have some bruising which will clear up in a few days. This can be minimized by applying pressure or ice to the area.
3. You may do your usual activities following botox treatments.
4. The effects of botox take up to 48 hours or more to appear.
5. Please allow up to 10 days for the full effect to become apparent.
6. If you are unhappy with the results a complimentary touch up is offered up to 2 weeks following your original treatment. You can schedule a touch up online at **botoxbydrlandsman.com**.
7. The effects of botox last approximately 3 months. Be sure to schedule your next appointment in three months online at **botoxbydrlandsman.com**.
